

Social Network Policy

It is the policy of the nursery that any staff members that are on any social network sites including facebook, twitter, my space etc please remember to uphold confidentiality at all times and not to discuss any matters regarding children or the setting.

The management understand that staff may already be friends with parents but if this is not the case, staff should not request or accept friend requests from parents on any of the social sites.

This is to protect yourselves and the setting from any repercussions.

Breaking of confidentiality may incur instant dismissal.
